# **solutions suspensions and colloids activity**

## **solutions suspensions and colloids pdf**

Because the size of the dispersed phase may be difficult to measure, and because colloids have the appearance of solutions, colloids are sometimes identified and characterized by their physico-chemical and transport properties.

A dilatant (dilatant) (also termed shear thickening) material is one in which viscosity increases with the rate of shear strain. Such a shear thickening fluid, also known by the initialism STF, is an example of a non-Newtonian fluid.

## **Dilatant - Wikipedia**

Biology Placement Test The Biology Placement Test was designed based on the objectives of the Introduction to Biological Chemistry course (BIO 1100) and measures students' knowledge of Biological Chemistry for placement into BIO 2331 or BIO 233A only
