errata sheet for the second edition, printings two through four. (Most errors

Wilson J Rugh - Google Sites

The solution is to set $a^{-1} = 1/a$ and along with that $a^0 = 1$. Now we have exponent with integer powers. Next up we consider fractional powers. Here $a = a^{1/m} = (a^{1/m})^m$ is the guide. We notice that the meaning of $a^{1/m}$ is a solution to $x^m = a$. Therefore, to introduce fractional powers is the same as introducing solutions to $x^m = a$. Unfortunately, these solutions are not always within our

...

James B. Wilson - math.colostate.edu

Description. The text is designed for undergraduate Mechanical Engineering courses in Kinematics and Dynamics of Machinery. It is a tool for professors who wish to develop the ability of students to formulate and solve problems involving linkages, cams, gears, robotic manipulators and other mechanisms.
